Jeff is now home and safe, but his body still needs to heal, and he must catch up with the many changes that have happened while he was gone. Problems have surfaced that he must solve, and other matters will arise requiring his attention. By now, almost all of the new recruits have had a taste of what it takes to make the grade in International Rescue, both the exciting and the mundane. Training has begun, and the newbies and the Tracys now must learn to grow as a team, seeking to balance personalities and skills to make International Rescue even more effective.
