I've created this to give links to a few scans that don't fit on the site or in the gallery. Most of them are pretty big, size-wise, which is why they don't fit. They're uploaded to my snapdrive account, and I'll add more links as I scan more materials.

Mateo Island

Firefly Schematic

Tracy Island Complex

ETA: My snapdrive is long gone so I'll have to figure out something else.

All right. The scans of Mateo, the Firefly's schematic, Tracy Island complex and more are posted on my photobucket. You can find them here. The album is password protected at the moment; the password is tbirdsrgo. I'll leave it there for now. If the other moderators want a different solution, let me know.
