Here's a list of layouts to help our players with writing their posts. These are things we've pretty much created for our own use, and if there are alternate layouts (such as found in the recent Hayes Technical Manual, our own ideas take precedence. Included are apartments, Villa suites, the Villa as a whole, the Round House, and Thunderbird Seven. More will come as needed.

I would like to point out that these layouts, especially the new equipment and uniforms, are meant for our roleplay only and may not be used elsewhere without express permission from a moderator.
